Dear Kim,

Thank you for returning Barry's phone call and I know he is looking forward to speaking with you directly.

Per your suggestion, kindly forward any information you feel may be helpful to us regarding PCB removal, more specifically removal of caulking, encapsulation of building components to remain in-tact and possibly information to develop a comprehensive removal plan.

Barry - Please call Kim @ (617)918-1527

Thanks again Kim,

Jim Jamieson
